## EDUCATION

<b>Hilcoe</b> <i>Bachelor of Arts in Computer Science</i>	Addis Ababa, Ethiopia <i>Sep. 2015 – Oct 2019</i>
--------------------------------------------------------------	------------------------------------------------------

## EXPERIENCE

<b>Full-Stack Developer</b> <i>Maraki</i>	Jun 2020 – Present <i>Addis Ababa, Ethiopia</i>
<ul style="list-style-type: none"><li>Created and optimized complex SQL queries to streamline data retrieval processes, leading to a 40% reduction in report generation time.</li><li>Delivered a comprehensive analytics dashboard for the ERP system, resulting in a 35% improvement in data-driven decision-making by management.</li><li>Developed more than 10 ERP modules for inventory management, accounting, and HR, enhancing overall system functionality.</li></ul>	
<b>Mid-Level Front-End Developer</b>	<i>Jun 2020 – Jul 2021</i>
<ul style="list-style-type: none"><li>Redesigned critical UI components, resulting in a 20% increase in user satisfaction and a 15% reduction in user-reported issues.</li><li>Designed and built an in-house tool facilitating ERP configuration and data integration. This innovation streamlined system setup by 40% for technicians, optimizing deployment timelines and operational effectiveness.</li><li>Achieved a 30% reduction in web application load times through efficient code organization and the implementation of lazy loading and asynchronous data fetching techniques.</li></ul>	
<b>Junior Front-End Developer</b>	<i>Oct 2019 – May 2020</i>
<ul style="list-style-type: none"><li>Developed and implemented an order overview module presenting critical order details such as items, lot numbers, and delivery routes. This initiative reduced user errors and elevated customer satisfaction by 20%.</li><li>Executed comprehensive compatibility tests across multiple browsers and devices to maintain consistent user experience.</li><li>Developed and implemented a feature to automate sales and order report generation, improving efficiency and data accuracy.</li></ul>	

## PROJECTS

<b>Sun Shine Laundry</b>   <i>Ionic , Angular, .Net, PostgreSQL</i>	Jun 2019 – Dec 2019
<ul style="list-style-type: none"><li>Utilized Ionic framework to create a responsive and accessible mobile application for both iOS and Android users.</li><li>Integrated push notifications to keep users informed about order status and promotional offers.</li><li>Designed and integrated secure user authentication mechanisms, including OAuth, to protect user data and enhance security.</li></ul>	
<b>Messaging API</b>   <i>NestJs, MySql, Git</i>	May 2021 – May 2022
<ul style="list-style-type: none"><li>Enabled seamless communication through email, Telegram, and Slack channels within the Maraki ERP ecosystem using NestJS and PostgreSQL.</li><li>Created Telegram and Slack bots integrated with the messaging API to facilitate efficient and automated communication between the ERP system and users on these platforms.</li><li>Implemented delivery status tracking for messages, providing real-time insights into the status of sent messages and ensuring successful communication with recipients</li><li>Utilized PostgreSQL to manage message data, ensuring efficient storage, retrieval, and reliability.</li></ul>	
<b>Portfolio Site</b>   <i>React, Tailwind, Shadcn</i>	Dec 2022 – Feb 2023
<ul style="list-style-type: none"><li>Created a responsive and visually appealing portfolio website to showcase skills and projects using React, Tailwind CSS, and ShadCN UI.</li><li>Ensured the website was fully responsive, providing an optimal viewing experience on various devices, including desktops, tablets, and mobile phones.</li><li>Integrated interactive elements and smooth navigation to improve the overall user experience and engagement.</li></ul>	

## TECHNICAL SKILLS

**Languages:** JavaScript,Java, Python, C# , SQL (Postgres), HTML/CSS,  
**Frameworks:** React, Node.js, Angular, WordPress, NestJs, Spring Boot  
**Developer Tools:** Git, Docker, VS Code, Visual Studio, PyCharm,
