EDUCATION

Hilcoe School of Computer Science

Bachelors in Computer Science

Addis Ababa, Ethiopia

Sep. 2015 – Oct 2019

EXPERIENCE

Full-Stack Developer

Maraki Soft PLC

Jun 2020 – Present

Addis Ababa, Ethiopia

- Created and optimized complex SQL queries to streamline data retrieval processes, leading to a reduction in report generation time.
- Delivered a comprehensive analytics dashboard for an ERP system, resulting in improvements in data-driven decision-making by management.
- Developed more than 10 ERP modules for inventory management, accounting, and HR, enhancing overall system functionality.

Mid-Level Front-End Developer

Jun 2020 – Jul 2021

- Redesigned critical UI components, resulting in increased user satisfaction and a 15% reduction in user-reported issues.
- Designed and built an in-house tool facilitating ERP system configuration and data integration, streamlining setup by 40%.
- Achieved a 30% reduction in web application load times through efficient code organization, lazy loading, and async data fetching.

Junior Front-End Developer

Oct 2019 – May 2020

- Developed and implemented an order overview module presenting critical order details such as items, lot numbers, and delivery routes.
- Executed compatibility tests across multiple browsers and devices to maintain consistent user experience.
- Automated sales and order report generation, improving efficiency and data accuracy.

PROJECTS

Sun Shine Laundry | Ionic, Angular, .Net, PostgreSQL

Jun 2019 – Dec 2019

- Developed a responsive mobile app using Ionic for iOS and Android.
- Integrated push notifications for order updates and promotions.
- Implemented secure authentication with OAuth.

Messaging API | NestJs, MySQL, Git

May 2021 – May 2022

- Enabled communication via email, Telegram, and Slack within the ERP system.
- Created Telegram and Slack bots integrated with NestJS API.
- Implemented delivery status tracking for real-time insights.
- Enhanced observability with NestJS exception handling and logging.
- Used TypeScript for type safety.

Portfolio Site | React, Tailwind, Shadcn

Dec 2022 – Feb 2023

- Built a responsive and visually appealing portfolio site.
- Ensured optimal viewing on desktops, tablets, and mobile devices.
- Integrated interactive elements and smooth navigation.

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, C#, SQL (Postgres), HTML/CSS

Frameworks: React, Node.js, Angular, WordPress, NestJs, Spring Boot

Developer Tools: Git, Docker, VS Code, Visual Studio, PyCharm
